CITY OF MIAMI BEACH
ANNOUNCEMENT OF UNCLASSIFIED POSITION

INFORMATION TECHNOLOGY SPECIALIST II
$49,946.02 - $80,666.57 ANNUALLY
(SALARY COMMENSURATE WITH EXPERIENCE)

DESCRIPTION OF DUTIES: This is an analyst/programmer position for a highly motivated individual who is skilled in systems analysis and design, and implementation of complex systems in the automation of City functions as well as having full life cycle experience developing web-enabled MS-SQL database-driven applications. Responsibilities include: developing and implementing database tables, front-end web interfaces, queries, stored procedures, data gathering, defining objectives, preparing time estimates, identification of problems and defining their solutions, translating system requirements into requests for proposals, presenting findings, recommendations and specifications in written and/or verbal presentations. Additional responsibilities include the ability to document enhancements and modifications to new and existing systems and developing applications using the latest MS technologies such as ASP, VB.NET, C#, MS-SQL, Crystal Reports and Visual Studio. Applicant may be assigned to a variety of tasks related to the creation, modification, or maintenance of systems, e.g. programming, user training, and/or to provide system support to users of various City-wide applications including all microcomputer packages supported by the Information Technology Department.

REQUIREMENTS: Graduation from an accredited college or university with a Bachelor's degree in Computer Science, Management Information Systems, or a closely related field. Three years of full time experience in designing and developing computer applications, writing documentation, training end-users, working with vendors and leading implementation projects. Additional related experience may substitute for education on a year-for-year basis. Knowledge of MS-SQL Server is mandatory with the ability to write complex queries and also with a full understanding of stored procedures.

DESIRES: Knowledge of three tier development.   Internet skill-based knowledge of Java Servlets, PHP, XML and HTML a plus. Knowledge of GIS a definite plus. Experience with Aquilium and/or Permits Plus as well as Eden InForum Gold desirable.
